

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on all
Sample: all obs
What method: all treated cohorts + exact time matches

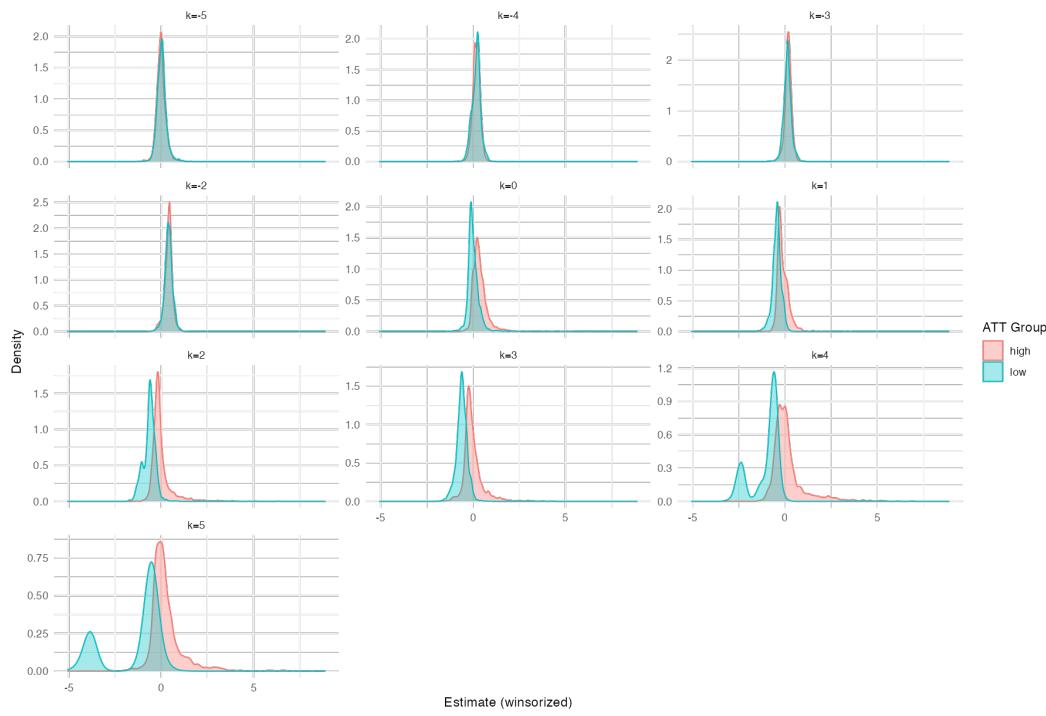

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on observed
Sample: all obs
What method: all treated cohorts + exact time matches

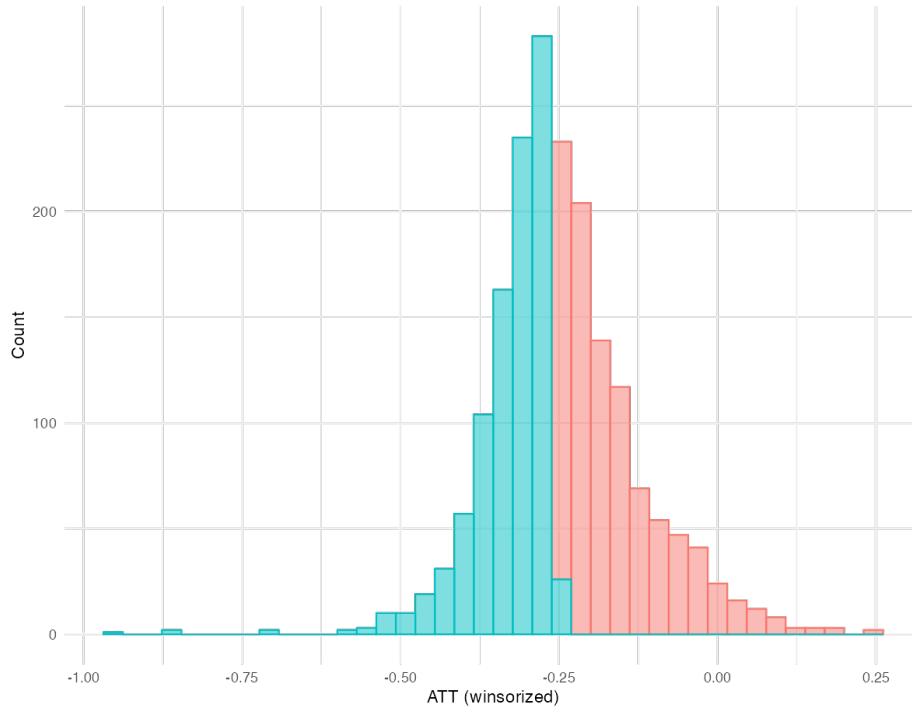

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on all
Sample: all obs
What method: all treated cohorts + exact time matches

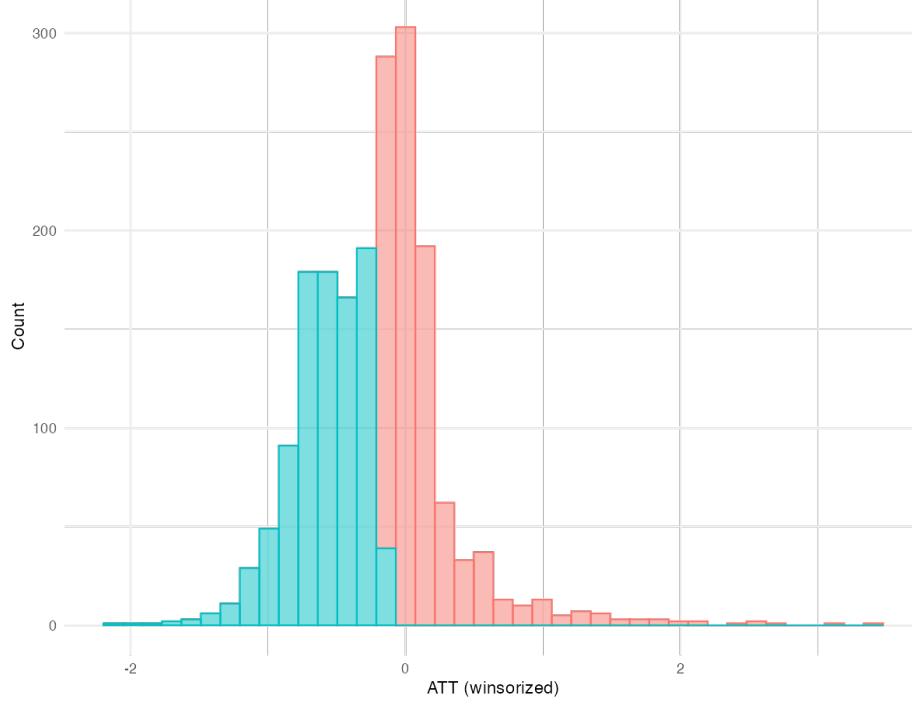

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on observed
Sample: all obs
What method: all treated cohorts + exact time matches

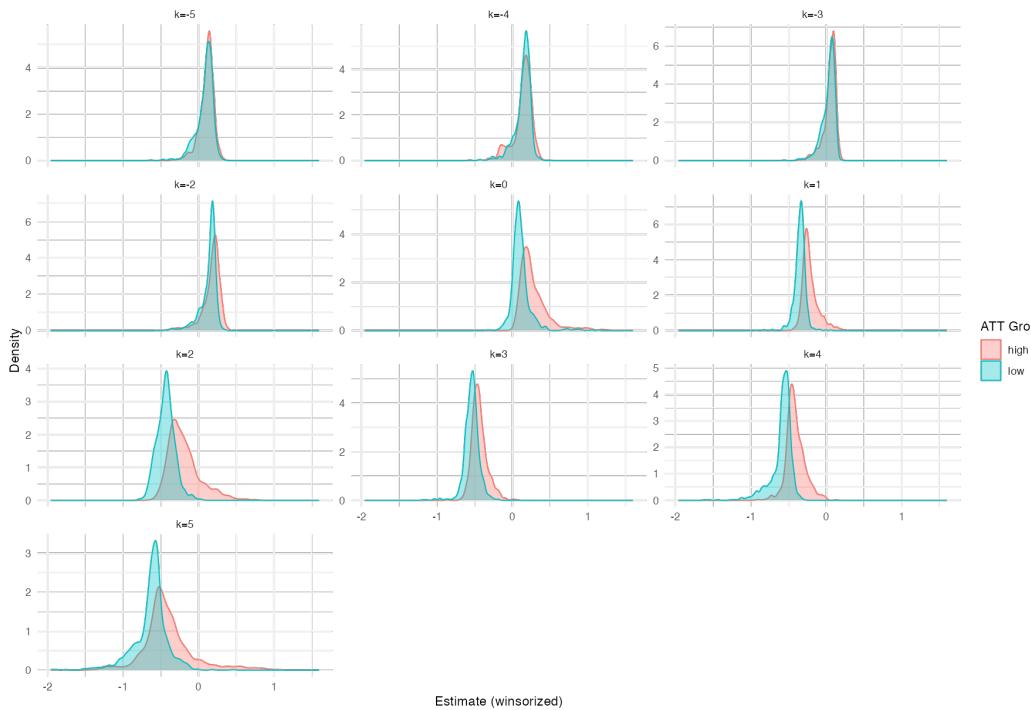

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on all
Sample: num-qualified=1
What method: all treated cohorts + exact time matches

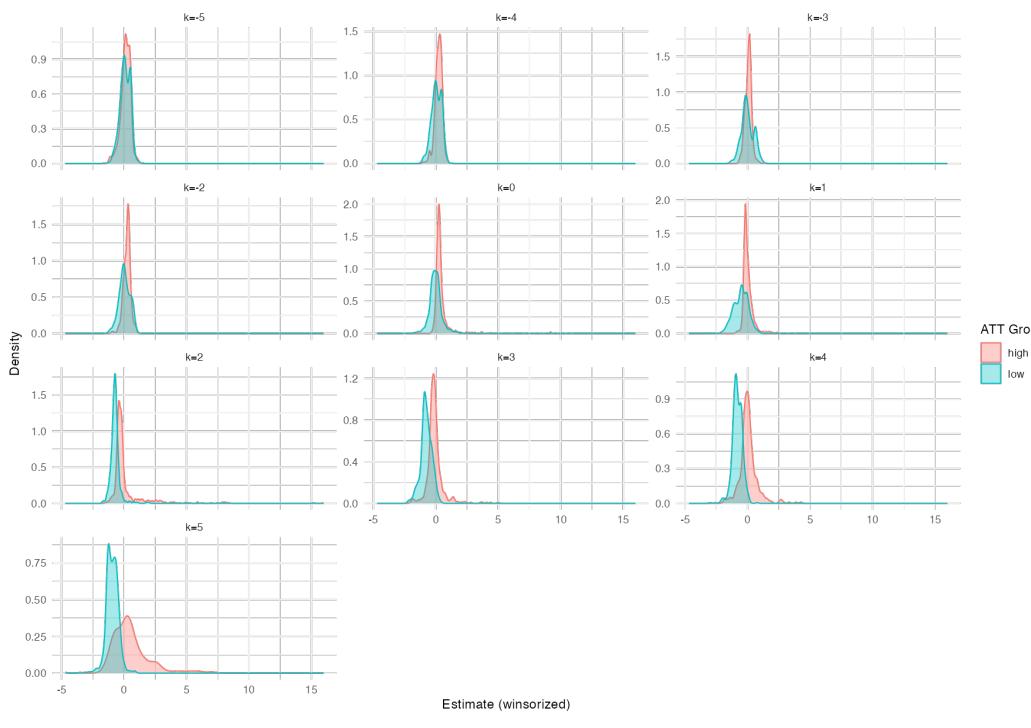

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on observed
Sample: num-qualified=1
What method: all treated cohorts + exact time matches

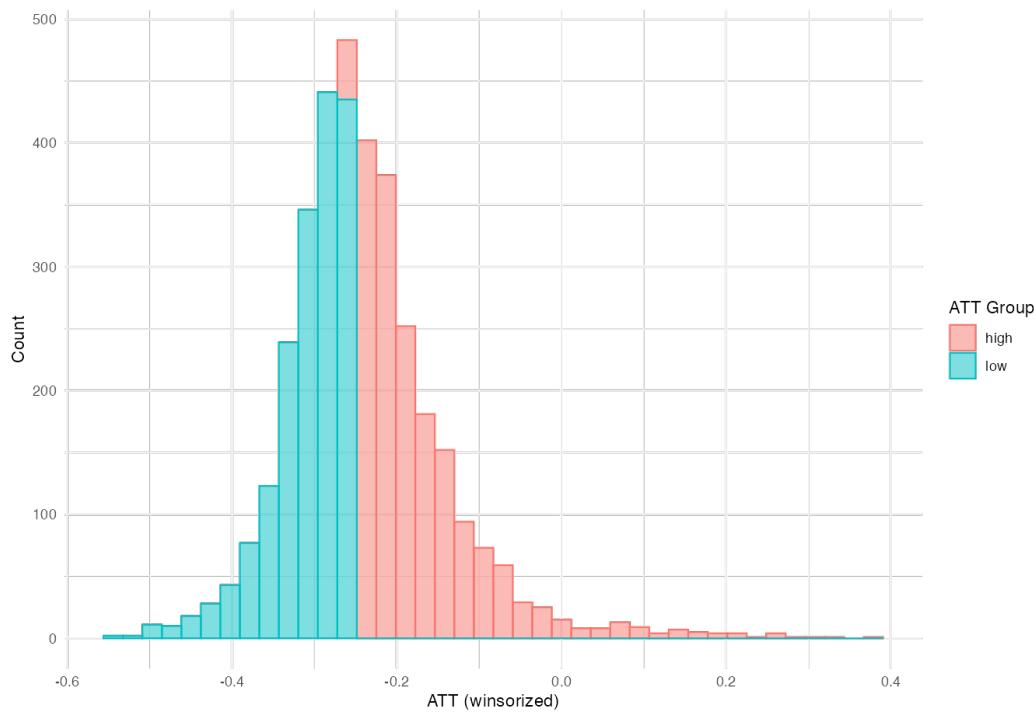

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on all
Sample: num-qualified=1
What method: all treated cohorts + exact time matches

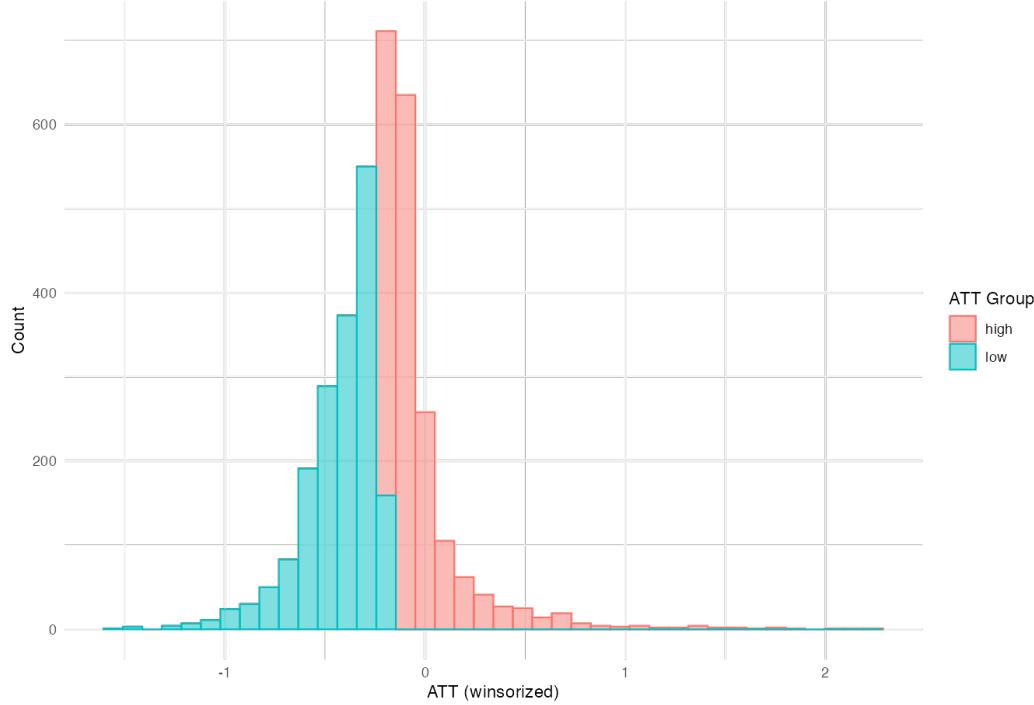

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on observed
Sample: num-qualified=1
What method: all treated cohorts + exact time matches

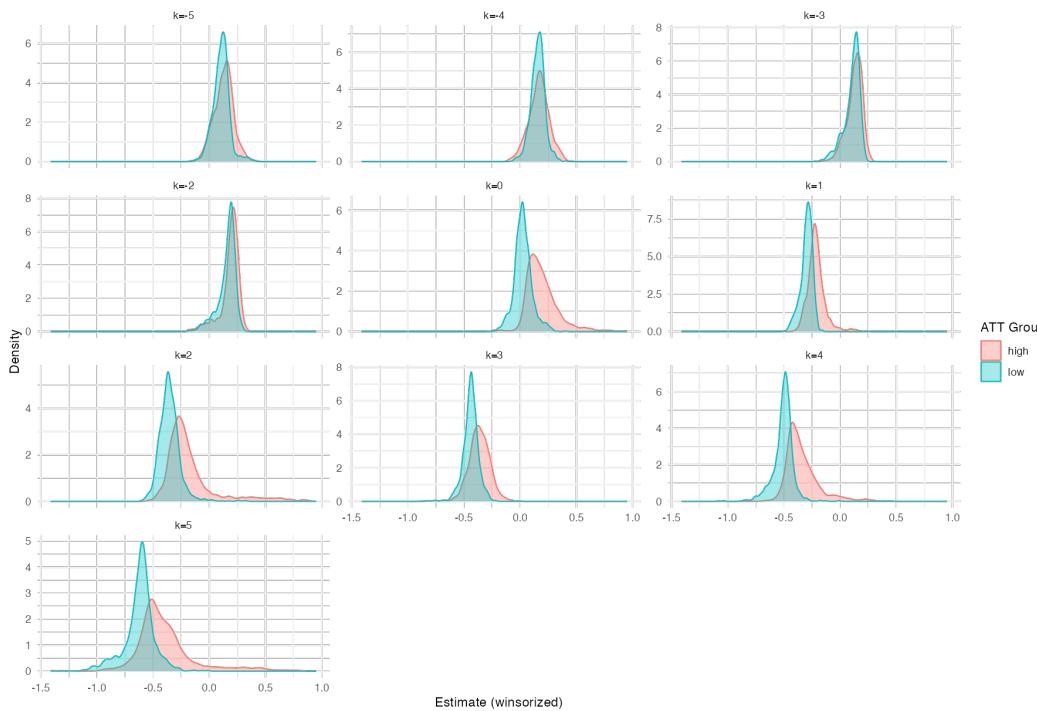

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on all
Sample: num-qualified ≥ 1
What method: all treated cohorts + exact time matches

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on observed
Sample: num-qualified ≥ 1
What method: all treated cohorts + exact time matches

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on all
Sample: num-qualified ≥ 1
What method: all treated cohorts + exact time matches

Causal Forest ATT pull_request_merged
rolling5 (lm_forest) estimated on observed
Sample: num-qualified ≥ 1
What method: all treated cohorts + exact time matches
